github.com/Gbagamsyle • ogabasilas.netlify.app • linkedin.com/in/ogaba-silas-4172821b8/

PROFESSIONAL SUMMARY

Frontend and full-stack developer with contract and internship experience building responsive web interfaces, integrating APIs, and developing database-backed applications. Experienced with React, Next.js, TypeScript, Node.js, PHP, and SQL; served as Frontend Lead during an HNG internship. Computer Engineering graduate with projects spanning SaaS operations, e-commerce, and healthcare workflows.

TECHNICAL SKILLS

Frontend: React, Next.js, JavaScript, TypeScript, HTML, CSS, Tailwind CSS, CSS Modules

Backend & data: Node.js, Express.js, PHP, REST APIs, PostgreSQL, MySQL, Supabase, Firebase, Prisma, Convex

Tools & delivery: Git, GitHub, Vite, Socket.IO, Vercel, Netlify, Railway

PROFESSIONAL EXPERIENCE

Frontend Lead (Intern) — HNG Internship | Sep 2025 – Dec 2025

- Selected as Frontend Lead during the HNG internship; coordinated frontend implementation for the Interactive Bible application and collaborated with the project team on feature delivery.

Frontend Developer (Contract) — Metsad Engineering Services | Oct 2025 – Dec 2025

- Built a responsive corporate website using React, Vite, and CSS Modules; integrated serverless contact-form handling.
- Configured SEO structure, Google Analytics tracking, and sitemap submission for the website.

Full-Stack Developer Intern — Codeflare Tech Limited | Jun 2025 – Dec 2025

- Built a school management system portal and contributed to other full-stack web solutions, developing practical experience across frontend, backend, PHP, and SQL.
- Implemented CRUD functionality, connected application logic to databases, and worked with Git workflows, code reviews, and deployment practices.

Project / Junior Frontend Developer (Contract) — Godee Alliance Corporations | May 2024 – Feb 2025

- Integrated APIs and backend services to support data access and reporting; translated civil-engineering workflows into user-facing web solutions.
- Supported deployment, maintenance, and troubleshooting of web systems used across departments.

SELECTED PROJECTS

OpsFlow — SaaS Operations Platform | github.com/Gbagamsyle/opsflow

- Developed a multi-organization project and task management application with client workflows, role-based access control, REST APIs, and real-time activity updates. Technologies include TypeScript, PostgreSQL, Prisma, and Socket.IO.

Audiophile E-Commerce — Web Application | github.com/Gbagamsyle/Audiophile-ecommerce

- Built a responsive Next.js storefront with reusable UI components, cart and checkout flows, Convex order storage, and transactional email integration.

EdgeMed Sync — Patient Records Platform | github.com/Gbagamsyle/EdgeMed-Sync

- Developed a React patient dashboard with a Node.js/Express API, Supabase-backed records, vitals workflows, and offline record synchronization.

DevScraper — Developer Data Tool | github.com/Gbagamsyle/devscraper

Built a developer-focused scraping application for collecting and working with web data.

Framez — Social Mobile Application

Developed a React Native / Expo social app with Firebase authentication and Cloudinary media uploads.

Multi-Framework Ticket Management — Web Application | github.com/Gbagamsyle/Multi-framework-ticketr

Built a ticket-management project exploring application workflows across multiple frontend frameworks.

Everything Hair by Prevail — Brand Website | hairbyprevail-nine.vercel.app

Created a responsive website concept for a hair brand, presenting its services and visual identity.

EDUCATION

B.Sc., Computer Engineering | Federal University of Technology, Minna | Graduated 2026
